# WHEAT UP OVER TWO CENTS

RECOVERS ALL OF TUESDAY'S LOSS AND A TRIFLE MORE.

Liverpool Cables Were Better, Northwest Markets Stronger, and Traders Wanted to Buy-Corn and Oats Also Gain.

Chicago, Oct. 28.-Wheat acted to-day as if started on a renewal of the recent temporary suspended bull campaign. It advanced to 71%c for December and closed at 70%@71c, or nearly 2%c higher than it did yesterday. Better Liverpool cables, a strong Northwest market and engagements for Australian shipment all contributed the

unchanged figures.

The Liverpool market was once again a surprise to the traders here, who looked for its being quoted very weak, after yesterday's emphatic slump. But, on the contrary, prices from the surprise to the contrary, prices from the surprise to the contrary, prices from the surprise to the traders here, who looked for its being quoted very weak, after yesterday, and there are orders for more.

Snow was falling yesterday morning throughout the mountain states, and rain in Kansas, Nebraska and Texas. Local rains and colder weather are predicted for Winter when the surprise to the traders here. Winter when the surprise to the traders here, who looked for its being quoted very weak, after yesterday, and there are orders for the surprise to the traders here. Winter when the surprise to the traders here, who looked for its being quoted very weak, after yesterday. its being quoted very weak, after yesterday's emphatic slump. But, on the contrary, prices from there showed a %c advance by the time the session opened. That set December going at an advance of %c. The first transactions in that option were made at from \$6966%c, and inside of half an hour the price had risen to 69%c. The Northwestern receipts were again so heavy now. The more consplcuous increases in stocks of wheat last week, reported by Bradstreet's and not covered by the official visible supply statement, were \$6,000 bushels at Galveston. \$2,000 bushels at Rochester, and with 1,228 on the corresponding were advices from the Northwest that farmers' deliveries are rapidly falling off.

A point in the situation in Minneapolis which was much commented upon was that which was much commented upon was that that market, which a few days ago wa to was down to lc at one time to-day. The bull sentiment was held somewha in check during the morning hours by the the fact that New York cleared no wheat and by the continued closeness of the money market. But a little before noon steady advance set in, December climbin to 70%c. This was caused principally by sudden development of buying orders sup sed to come from Cudahy, whose sellin was held to be in a large measure responsible for yesterday's break. That he should turn buyer was an unexpected devel-ent and caused a sharp rally. The Northwest was also bullish, with prices dvancing sharply-making nearly 2c advance—and there was good buying here for Northwest account. During the last fif-Australia started buying anew. December advanced to 71%c, but reacted somewhat before the close, final figures being 70%

Corn was quiet, but firm, being helped a good deal by the stronger feeling in wheat. The advance in freights from the West is expected to diminish the receipts, temporarily at least, and that, perhaps, mad shorts all the more ready to cover. May opened unchanged at 27%@28c, advanced to 28%c and closed steady at 28%@28%c. Oats were quiet. A firm feeling existed and prices were higher, influenced by the action of wheat and corn. Very little interest centered in the market. May start-

ed a shade higher at 214@214c, touched 214@214c, advanced to 215c and the last price was 214@215c, sellers. Provisions were heavy. The heavy re-ceipts of hogs and large estimates for toorrow caused a weak opening and under pretty general selling a further decline took The strength of wheat and corn had its effect later, however, and about

all the decline was recovered. January pork closed 2½c lower at \$7.80; January lard, unchanged at \$4.50; January ribs, unhanged at \$3.8562.874. Estimated receipts Thursday: Wheat, 146 changed at \$3.8562.874.

## Stocks and Bonds.

New York, Oct. 28.—The volume of business in stocks to-day was only about one-half as a rge as on Tuesday, and the market dispayed nervousness throughout, reflecting the after effect of yesterday's "scoop." The trend of prices was toward a lower level, with a few fiftul and short-lived rallies intervening. The trading was purely professional and the governing influence consisted of pronounced manefary purely professional and the governing influence consisted of pronounced monetary stringens. Call loans touched 12 per cent, and although a 6 per cent rate was subsequently established, the bulk of the loans was at 769 per cent. The rallies were almost in every instance attributable to covering of short contracts. The severest declines were made in the forenoon operations and apathy characterized the afternoon session, although prices settled back to the lowest points at the close. In the last hour the general market was helped slightly, sympathetically, by the rally in wheat, but fell again on renewed realizations and bear pressure.

Bond prices sagged slightly on limited offerings.

# THE FAMINE IN INDIA.

Outlook Is Increasing in Gloomines Relief Work Has Already Been Put Under Way.

Simla, Oct. 28.—The famine outlook in Irdia is increasing in gloominess. It is not probable now that rain will fall, and the prospects are serious in the Northwest and Central provinces in the Punjaub. The scarcity is extending to Bebar. At Bomscarcity is extending to Bebar. At Bombay, prices have risen heavily. Large imports of foreign grain are expected. Large sums have already been given from the imperial revenues for advances of seeds, etc., and relief work in the Northwest, Central provinces, the Punjaub, Central India and Raputana are being started, in addition to the irrigation works which are projected in the Punjaub. The government will issue a detailed and final forecast of the distress in December.

## Russian Thistles for Fuel.

Chamberlain, S. D., Oct. 28.—As the result of experiments last winter, the mill at Castalia will again use the Russian thistle for fuel in place of coal. The proprietor of the mill offers farmers \$1.50 per ton for all the thistles they can bring in. Thus the farmers in that section will receive an income from what has heretofore been one of their greatest enemies, the thistles growing in such profusion in some localities that small grain has been completely crowded out.

LONDON PAPER SAYS UNITED STATES CONTINUES TO LEAD.

In Past Nine Months Cattle Imports Were Increased-Falling Off in Sheep-Table Showing the Trade With England.

The London Meats Trade Journal in summing up the imports of cattle and sheep and beef and mutton into the United Kingdom the past nine months, says the United States continues to lead in cattle and there has been a gain in this trade, but there was a falling off in the sheep imports from this country from 47 per cent in 1886 to 38.30 per cent this year, while Argentine gained from 27.43 per cent in 1895 to 47.77 per cent this year. The imports from Canada show a falling off. But as most of this live stock is now exported via Boston, this may account for the apparent loss and the gain from the United States. The following table exhibits the nine months' exports of cattle to the United Kingdom from the United States and Can-

The top cattle yesterday were Westerners. They were fifty-eight steers fed by F. W. Heineman, of Verden, Neb. They averaged 1,463 pounds, and were smooth and fat. They were sold by the Stotler Commission Company at \$4.60, the highest price of the day. The Armour Packing Company got them.

A nice lot of heavy steers were also brought in by J. W. Harrison, of Belton, Mo. They were of his own feeding and very beefy. There were twenty steers, averaging 1,520 pounds, and they were sold by Taylor, Taylor & Hunton at \$4.55, next to the highest price of the day. Swift & Co. bought them.

Heavy weights were not the only one that received attention. J. T. Berk, of Frankfort, Kas., was in with twenty-one choice baby beeves of his own feeding. They averaged 1,173 pounds and were sold by H. B. Patterson & Co. at \$4.50. They went to Armour for the dressed beef trade.

Sound Money Sentiment Spreading in Blue Township-Another Good

Meeting Last Night. The Republicans of Blue township held forth again last night in the upper room of the court house. Every seat was taken and the walls were lined with voters. H. S. Hadley and A. A. Jones made speeches. Points made by the speakers were received

with applause.

The large crowds in attendance at the The large crowds in attendance at the sound money railles show that a campaign of education is going on in Blue township. Two years ago Blue township went Republican and campaign managers here claim that it will be repeated at the election next Tuesday. The outlook now is that the vote in the city will offset that of the country. Democrats conceded yesterday that the sound money sentiment was growing and view the situation with considerable alarm.

Arrested for Horse Stealing. Arrested for Herse Stealing.

Lee Clinton was arrested yesterday morning at the Union street station by Deputy Marshal Zatimer, on the charge of stealing three horses from a widow lady, Mrs. Hutchens, Tuesday night, as told in the Journal yesterday.
